

## Merrill Middle School Homework Check-In

Each week, Merrill teachers will update the calendars to reflect the assignments and/or links that students should be completing.

In addition to the Canvas and Teams platforms, this will be a good way for students to become more organized with the work that has already been done, needs to be made up, or was missed due to an absence.

After clicking on the button for the correct Pod, you will be able to view an Excel calendar with weekly/daily updates. Please note, there are tabs at the bottom of the page to switch the dates!
